TECHNICAL SKILLS

Languages: JavaScript(ES6+)

Proficient

- Frontend: HTML, CSS, Tailwind CSS, React.js
- Version Control: Git, GitHub

Familiar

- Backend: Node.js, Express.js
- Database: MongoDB

EDUCATION

- Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)
Nepalaya College, Kathmandu – Tribhuvan University, (2020 – 2025)

PROJECT

Meeting Management System

Main Features:

- Day-based filtering of meetings providing a clear, at-a-glance view of daily priorities.
- Add, edit, and delete meeting entries providing flexible scheduling to adapt to last-minute changes and updates.
- Send SMS notifications with meeting details to the Department Head.
- Role-based access control for secure and customized user experiences.
- Github: [Meeting Management System](#)

Server Monitoring System

Main Features:

- Developed an interactive dashboard displaying real-time active/inactive server details enabling immediate identification of server outages to minimize system downtime.
- Implemented functionality to add, edit, and delete server IP addresses.
- Enabled filtering of IP addresses based on province for efficient server management allowing teams to quickly isolate and troubleshoot issues by province.

EXPERIENCE

- **Software Developer Intern | Nepal Electricity Authority, Kathmandu** (Mar '25 – Jun '25)
Collaborated in a cross-functional team to build internal web tools using MERN stack. Developed responsive UI components and integrated REST APIs to handle dynamic data. Gained hands-on experience in Agile development, version control, and full-stack web practices.
